PATENT

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

1. (Currently Amended) A die press system, comprising:
a commercial die press including a working area with a cutting height;
a consumer die adapted to be located in the a cutting area of a consumer press with a cutting height smaller than the cutting height of the commercial die press, the consumer die having a height that is custom or specific to the consumer press cutting area; and
an adapter having a thickness or height that is generally approximately equal to the difference between the height of a commercial die and the height of the consumer press-die, and configured to allow the consumer die to be utilized with the commercial die press.;
2. (Original) The die press system of Claim 1, wherein the adapter includes a cutting pad.
3. (Original) The die press system of Claim 1, further including a cutting pad.
- 4-5. (Canceled)
6. (Original) The die press system of Claim 1, wherein the adapter attaches to a die press platen.
7. (New) A die press system, comprising:
a commercial die press having a working area with a corresponding commercial die cutting height;
a die having a height adapted for a cutting height smaller than the commercial die cutting height; and
an adapter having a height that is approximately equal to the difference between a height of a commercial die and the height of the die, and configured to allow the die to be utilized with the commercial die press.
